

How to crimping the wire?

H/W

1-7-26

CCNA physical pdf.

1) Types of mediums?

3 types:

- 1) Radio frequency - wirelens - Air
- 2) Electrical signal - wired - copper wire
- 3) Light Signal - Fiber optic cable.

2) Write down scotch 8 pins?

1 +R

2 -R

3 +T

4 +V

5 -V

6 -T

7 -

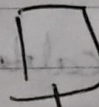

8 -

3) Connect UTP Cable between two devices:

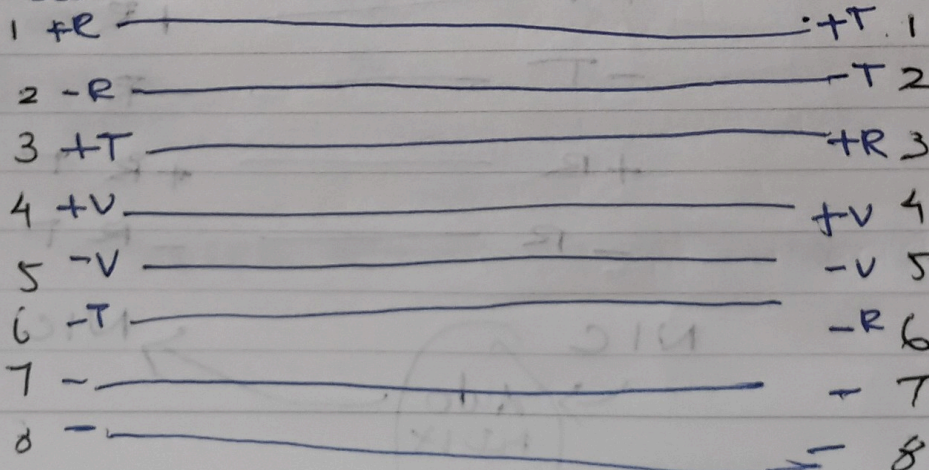

Different Device

& Same Network

computer.

4) Explain AUTO MDIX? (Automatic Medium - Dependent Interface Crossover) is an Ethernet Port feature that automatically detects whether a connected cable is straight-through or crossover cable and adjusts its internal transmit (Tx) and receive (Rx) pins to match.

5) Explain PoE Injector? PoE injector is a device that adds electrical power to a standard Ethernet cable. It allows you to send both data and power to a network device (like an CCTV or IP Camera or WIFI access point).

6) Explain PoE Switch? Power Over Ethernet - It sends both data & electrical power to connected equipment using a single standard Ethernet cable (such as CAT5e or Cat6).

7) Explain type of NIC & function?

NIC - Network Interface Card

It contains mac & ip.
 It converts binary to electrical signal & electrical signal to binary signal.
